Risk Factors

The market is currently experiencing a moderate level of volatility, with the Bollinger Bands indicating a range of 2-5% for most assets. However, the RSI and MACD indicators suggest that the market is due for a pullback, with overbought conditions in the NIFTY, BANKNIFTY, bitcoin, and ethereum. The gold and silver markets are experiencing bearish momentum, with the RSI indicating oversold conditions. We recommend that investors exercise caution and consider hedging their positions to mitigate potential losses.
