

Daily Market Intelligence Report for 2026-07-16

1. Executive Summary

The global markets witnessed a mixed trend today, with major indices and commodities exhibiting neutral to bearish momentum. The NIFTY (^NSEI) and BANKNIFTY (^NSEBANK) closed lower, while the BSESN (^BSESN) remained flat. Gold (GC=F) and Silver (SI=F) prices declined, whereas Bitcoin (BTC-USD) and Ethereum (ETH-USD) showed resilience despite minor losses. The RSI and MACD indicators suggest bearish momentum for most assets, except for the cryptocurrencies, which continue to exhibit strong bullish momentum.

2. NIFTY Analysis

The NIFTY (^NSEI) closed 0.02% lower at 24,072.75, with a neutral RSI of 45.6. The price remains below the 50-day moving average, indicating a bearish structure. Immediate resistance lies near 24,530.90, while support remains around 23,805.20. The Bollinger Bands suggest a volatility range of 23,757.70 to 24,584.67. We expect the NIFTY to consolidate within this range, with a potential downside target of 23,500 if the support level is breached.

3. BANKNIFTY Analysis

The BANKNIFTY (^NSEBANK) closed 0.30% lower at 57,582.25, with a neutral RSI of 47.1. The price remains below the 50-day moving average, indicating a bearish structure. Immediate resistance lies near 58,581.10, while support remains around 56,549.40. The MACD indicator suggests a bearish crossover, which may lead to further downside. We recommend a cautious approach, with a potential short-term target of 56,000 if the support level is breached.

4. Gold Analysis

Gold (GC=F) closed 1.13% lower at 3,998.40, with a bearish RSI of 36.8. The price remains below the 50-day moving average, indicating a bearish structure. Immediate resistance lies near 4,199.70, while support remains around 3,962.50. The Bollinger Bands suggest a volatility range of 3,985.76 to 4,212.24. We expect Gold to consolidate within this range, with a potential downside target of 3,900 if the support level is breached.

5. Silver Analysis

Silver (SI=F) closed 1.35% lower at 56.34, with a bearish RSI of 32.2. The price remains below the 50-day moving average, indicating a bearish structure. Immediate resistance lies near 62.62, while support remains around 55.65. The MACD indicator suggests a bearish crossover, which may lead to further downside. We recommend a cautious approach, with a potential short-term target of 54.00 if the support level is breached.

6. Bitcoin Analysis

Bitcoin (BTC-USD) closed 0.46% lower at 64,413.98, with a strong bullish RSI of 59.4. The price remains above the 50-day moving average, indicating a bullish structure. Immediate resistance lies near 65,507.59, while support remains around 61,275.83. The Bollinger Bands suggest a volatility range of 61,771.45 to 65,226.06. We expect Bitcoin to consolidate within this range, with a potential upside target of 66,000 if the resistance level is breached.

7. Ethereum Analysis

Ethereum (ETH-USD) closed 2.16% lower at 1,875.51, with a strong bullish RSI of 67.3. The price remains above the 50-day moving average, indicating a bullish structure. Immediate resistance lies near 1,944.16, while support remains around 1,711.90. The MACD indicator suggests a bullish crossover, which may lead to further

upside. We recommend a bullish approach, with a potential short-term target of 2,000 if the resistance level is breached.

8. Risk Factors

The current market scenario is characterized by high volatility, with most assets exhibiting bearish momentum. The risk of a further downturn is high, especially if the support levels are breached. Investors are advised to maintain a cautious approach, with a focus on risk management and portfolio diversification.

9. Trading Opportunities

We recommend the following trading opportunities:

- Short NIFTY (^NSEI) with a target of 23,500 and a stop-loss of 24,100.
- Short BANKNIFTY (^NSEBANK) with a target of 56,000 and a stop-loss of 58,000.
- Long Bitcoin (BTC-USD) with a target of 66,000 and a stop-loss of 61,000.
- Long Ethereum (ETH-USD) with a target of 2,000 and a stop-loss of 1,700.

10. Tomorrow Outlook

We expect the markets to remain volatile, with a focus on the upcoming economic data releases. The NIFTY and BANKNIFTY may consolidate within their respective ranges, while Gold and Silver may exhibit further downside. Bitcoin and Ethereum are expected to maintain their bullish momentum, with potential upside targets of 66,000 and 2,000, respectively. Investors are advised to maintain a cautious approach, with a focus on risk management and portfolio diversification.
